**MAKE A DIFFERENCE . . .**

**As a citizen sponsor of the Illinois State Troopers Lodge #41**

**DON'T DRINK AND DRIVE!**

**H**ighway accidents, injuries and deaths involving drunken drivers continue to be our most pressing highway safety problem. In 1991, 41,508 people were killed in alcohol-related auto crashes in the United States. In Illinois alone, 1,448 people died in traffic accidents, many involving drivers whose blood alcohol level exceeded the legally acceptable limit.

**T**hink about that. Picture a city of 41,508 people, or a village of 1,448 people. See their faces, share their dreams. Connect these people to their relatives, friends and communities. Think of the thousands and thousands of people who are affected by the lives of the casualties. The impact and the extent of alcohol-related fatalities extends to every age group and social stratum in the country.

**W**e are all affected. Would we allow this to happen under any other circumstances? If 41,508 died in airline crashes in a single year, what would we do about it? Even more to the point, what if airline pilots were found to be legally intoxicated in airplane accidents that claimed the lives of 41,508 people?

What would we do? Stand up, shout at the top of our lungs, and mobilize to prevent such atrocities from happening?

**O**f course we would. As a society, we would not allow such a waste of human lives. If 41,508 people died in a natural disaster, we surely would take measures to prevent its reoccurrence. Surely, we would not allow it to happen year after year. Why should we allow it to happen on our highways?

**E**veryday, troopers spend hours assisting victims of auto accidents and dealing with the

trauma of injury and death on the highways. The Troopers Lodge #41 recognizes the necessity of stopping the alcohol-related highway carnage.

**T**he Trooper Lodge #41 delivers a message loud and clear to its citizen sponsors **\_DON'T DRINK AND DRIVE!** Citizen sponsors are provided with some gruesome alcohol-related, traffic fatality information in an effort to focus attention on this message. **"DON'T DRINK AND DRIVE!"** bumper stickers are given to citizen sponsors as a constant reminder to them and to the drivers around them that drinking and driving don't mix.
