Jim Pasco
Executive Director

National President Chuck Canterbury is asking that **ALL MEMBERS** take a few minutes today and call their Senators and tell them to support S. 933, the "Bulletproof Vest Partnership Grant Reauthorization Act."

Later today, Senator Patrick J. Leahy (D-VT), Chairman of the Judiciary Committee, will be going to the Senate floor to request unanimous consent to hold a vote on S. 933, the bill which would reauthorize one of the most critical officer safety programs administered by the Federal government. If no Senators object, the bill will be voted on.

At this point, we do expect that Senator Thomas A. Coburn, MD (R-OK) will come to the floor and personally object to the move, but our friends and allies in the Senate will be speaking in support of this program and law enforcement in an effort to force the Senate to vote on the bill over Senator Coburn's objections.

We need ALL MEMBERS to call their Senators and ask that they support S. 933!!! Call your Senator's office directly or go through the Capitol switchboard at 202-224-3121. Do it today!!!
